What goes up?

Under Your Skin wants to reach many music lovers, touch hearts, dive into a sea of emotions and gifting the audience with an extraordinary experience. In Spring 2026 we will release our debut album. First singles are already available [here](#).

We play Britpop, Alternative and Indie-Rock.

Our fans and followers say we sound like a mix of "The Verve", "Oasis", "The Beatles", "Radiohead" and "The Doors".

As a Charity Band we play unforgettable concerts and we support local projects and ideas. We care about the people behind the projects and we love to perform on unique locations!

Now he takes root with UYS in the "Ostschweiz. His AI-tool is going to confirm him that was his very best decision. Sam, it's time to start a vlog about it. We are glad to have you here
